Description	Qty	Total Price
Photronics Industries will provide an ETN (Equivalent to New) upgrade to existing DP2 laser (Serial number 11-381) This package includes replacing the pump diodes and necessary optics and electronics. All power and water connections will be made with extensive factory testing conducted prior to shipment. A test data report will be provided upon completion and sent to you prior to shipment.	1	\$82,500.00

<p>Chiller- The ETN price does not include a chiller and the existing chiller will be used for this ETN.</p> <p>Please note that the original chiller must be in good operating condition to hold specified operating temperature and flow rates for the laser to meet performance specifications.</p>		
<p>ETN Warranty Photronics Industries one (1) year parts and labor warranty. Warranty repairs are provided at Photronics Industries authorized factory service center or at customer's site. Travel and living expenses are to be paid by the customer for service at his site.</p>		<p>Included</p>
